Dear Member,

We're closer than ever to achieving real health care reform. Without reform, we could lose the good health care benefits we have worked so hard to bargain.

But the insurance industry and other special interests are getting desperate. They're trying to derail reform. If they get their way, costs will continue to skyrocket, especially for union employers.

If we don't pass health care reform now, all that we have fought for could be at risk.

CWA is leading a major effort this week to call Congress and urge passage of two bills that we support: H.R. 3200 and the Senate HELP Committee bill.

[Call your members of Congress today at 1-888-580-0792 and tell them to support health care reform that works for you.](tel:1-888-580-0792)

Health care reform opponents will say anything to stop H.R. 3200 and the Senate HELP bill. But the truth is, the bills will do a lot for CWA members:

- CWA members will keep their negotiated health plans. There will not be a government takeover of health care.
- All large employers will be required to pay toward employees' health care. This will reduce costs for CWA employers so we can win better wages and benefits at the bargaining table.
- Retiree health care plans will be protected.
- Insurance company abuses will be addressed -- care will not be denied due to pre-existing conditions.
- Friends and family without affordable coverage will get it.

Don't let the opponents of health care reform dominate the debate with lies and distortions. Make sure your voice is heard.

Take three minutes to call your members of Congress at 1-888-580-0792 and urge them to support health care reform today. [Click here for more information about what to say when you are connected.](#)

In solidarity,

Beth
